

## SPONSORSHIPS & EXHIBITS

As an island state, Hawaii faces unique challenges and opportunities. Energy and food security, climate change, and preservation of our natural and cultural resources are just a few of the issues that need our attention. Join us as a sponsor as over 300 planners and GIS professionals from across the state gather at the "Island Futures Conference," the only conference in Hawaii that brings together planning and GIS professionals in one place to focus on the complex issues facing Hawaii today.
